

Molded Bread From Your Home Altar

Some Apostles of the Green Scapular contacted us and indicated that the bread they had placed in a zip lock bag over Christmas, had molded. This was the bread that Jesus asked all Apostles to prepare on September 15, 2015 as indicated below:

Jesus said: "Also please tell my beloved Apostles that I will come this Christmas to visit them in their households. I will again ask all My beloved Apostles to retain a piece of bread and a bottle of water, they should place it on or at their own Home Altar. I will then go to each home and bless the bread and water, which is a blessing of prosperity on their food and water, never to run out even in the gravest of all famines which will soon take place in the America's and across the many nations. This bread and water will sustain their family members. They must not rid the bread or the water, but keep it at their Home Altar which will also multiply their own provisions during those days of famine." (You can refer to the original Heavenly Message under the 2015 Heavenly Messages link)

In several homes, however, the bread molded. This has caused great concern for those who experienced the molding of their bread. Anna Marie was able to discern this issue, through the grace of Jesus Christ, and is revealing two issues that became a pattern of circumstances causing the molding bread: Ghost activity and demonic activity.

The first instance of the molding bread came through a call from a couple living in Georgia, friends of Anna Marie. Since this couple placed a piece of bread in a zip lock plastic bag prior to Christmas, then it molded, they had time to replace the bread with a new one, in a new plastic bag. For the second time the bread molded. Concerned about the issue, they called Anna Marie in an attempt of figuring out what was going on. During the phone conversation, Anna Marie was informed by Jesus that there was a spirit in the home. As she prayed and discerned the spirit, Jesus showed her it was a ghost. The ghost was living in their home, which the couple had recently moved into.

As Anna Marie continued to pray and discern why the ghost was living in the home, Jesus revealed that this man ghost, committed suicide through hanging. Anna Marie witnessed the noose made of a very thick rope you would find on a farm or a ship. Amazed, Anna Marie told the couple that a man committed suicide in their home. Knowing that a suicide victim is earth bound, not able to leave the earth because they took their own life, Anna Marie began to question the man on his name (which he gave), and why he committed suicide. He gave his name and his reason, he had been involved in a homosexual relationship and now he had sinned against the Lord and he could not live with himself, so he committed suicide.

After this revelation, the couple and Anna Marie knew that the ghostly man would have to depart, so prayers were said, a Holy Mass was offered and the ghost departed through the authority of Jesus Christ. The couple placed another piece of bread in a new plastic bag and left it on the Home Altar. Their bread simply dried out, like it was supposed to do, but never molded.

The second instance was a case dealing with a family in the United Kingdom. A sweet mother contacted our Apostolate indicating that her bread molded. One of our Apostolate Volunteers reported this to Anna Marie, she discerned that an evil spirit was at work. Our Apostolate contacted the woman back and asked if she had noticed if she was having any poltergeist activity in her home, like black shadows or grey shadows. The UK resident responded with a "Yes", her children were terrified to sleep in their own beds, they are in one room

and one child reported to his mother that he had seen a black shadow in the house. Our Apostolate will continue to work with this family to ensure the demonic spirit departs from this house and the children feel safe.

A third instance came via another who was upset that her bread molded and questioned why Jesus would ask us to place a piece of bread in a plastic bag to only have the bread mold. She also indicated that not only did her bread mold, but her mother's friends who place their own bread in a plastic bag and placed it on their Home Altar, molded too. Yet, her mother who also had placed a piece of bread in a plastic bag on her Home Altar, did not mold. This Apostles wondered why three different homes had molded bread but not her mother's bread in her home. One of our Apostolate Volunteers responded back and let her know there is some sort of demonic spirit or ghost at work.

For these three instances and others who have contacted our Apostolate after their bread had molded in a plastic bag, we felt compelled to post this paper. If your bread has molded, then there is a "spiritual" reason why and by the Lord's grace, Jesus is revealing to you that you need to seek answers as to what is in your home causing your bread to mold.

For anyone who has had molding bread, please begin looking for answers on our Healing web page at: www.greenscapular.org/healing.html. You can also pray for the *Discernment of Spirits*, that Jesus will reveal to you what needs to be thrown away, that may be possessed and is now living in your home because you purchased this possessed item and then brought it home, where it now resides. Or maybe, you have experienced a ghost in your home.

We also invite you to contact us via email and let us know what may be going on in your home if your bread molded, so that we can pass your email on to Anna Marie for her discernment.

In the past, Jesus has usually asked all Apostles to place a piece of bread and bottle of water in their homes before Christmas. This year, before Easter, we ask that you pray with us and ask Jesus to come once again and to bless your piece of bread (placed in an air tight plastic bag) and bottle of water. We know that with your holy prayers, Jesus will hear your prayers.
