

ABORTION HEALING

If you have ever had an abortion, then you know the pain that remains in your life always. Certainly it was not an easy decision for you to make, but it is done and you have repented for it. As you know, only Sacramental Confession will remove this sin. Abortion is murder, and if you had an abortion, it is very likely that one of your ancestors also murdered someone.

Murder is a very horrible evil spirit. You need to clean this evil spirit out of your life, out of your family ancestral lineage. So you need to concentrate on three processes which are:

- Healing yourself
- Baptizing your little baby and naming him or her
- Healing your ancestral lineage

Certainly you have mourned the loss of this child if you intentionally went to an abortion clinic and had an abortion. Yet some women lose a pregnancy because they have surgery and did not know they were pregnant or some women simply miscarry. In all situations, the baby has passed into eternity. But you can continue with the process of healing.

After you make a Sacramental Confession, do your best to gain a Plenary Indulgence (refer to gaining a Plenary Indulgence article). You should Baptize the baby next. Get some holy water and ask Jesus to please allow you to name your baby, give Jesus the name of your baby. Next you should Baptize your baby. Get some Holy Water and make the Sign of the Cross in the air and say,

“Dear Jesus, please allow me to baptize my baby (say his or her name) in the name of God the Father, Jesus the Son, and the Holy Spirit. Please Jesus, let my baby spend his or her eternity in Heaven with Blessed Mother Mary until I can be joined with him or her.”

If you still experience post-traumatic stress from the abortion, then hand Jesus your baby and ask Jesus to forgive you for your sinful actions and please remove the guilt from you. Hand your baby to Jesus and allow Jesus to take the pain, hurt and sorrow from you.

Your baby has received all the grace necessary from you to remain in Heaven with Mother Mary until your return home into Heaven. You will find him or her there, and so there is no reason to suffer any more.

Next, you should heal your ancestral bloodline for the evil spirit of “murder” so it does not attack the next generation. Have Masses offered for healing your ancestral bloodline. You can view the article on Ancestral Healing to help guide you.

Have peace now, Jesus loves you and forgives you! Now you can ask your little baby in heaven to watch over you and your other children, to pray for your living children and make certain they take the road to heaven.

We have a beautiful story that we received from one Apostolate Member that wanted to share her

Apostolate of the Green Scapular

Bringing Conversion To The World,
One Soul At A Time

testimonial with others:

"I went to the hospital to have a D&C because doctors discovered I had an abnormal pap and it pointed to cancer of the cervix. So after the D&C, I experienced what I thought was losing a baby (I was probably only a few weeks or a month or so in the pregnancy). I did not intend to abort this baby, but I believed I did. I went to Confession and confessed that I had accidentally aborted my baby. Father gave me absolution and I have attempted to live with this sorrow my whole life, knowing Jesus would watch over him or her. I had heard that we should Baptize our lost babies, so I did that too. I had two other children after this incident and thanked Jesus for their lives.

Years later, my family and I went on vacation to see my brother and his family. His back yard opens up into open terrain where wild animals are. No sooner did we get there, we lost track of our youngest daughter, who had left the home and was wondering in the wilderness following my brother's dog out into the wild. Two hours or so later, our daughter came back out of the wilderness. My husband and I asked her where she was and she said that a girl took her hand and led her back to the house. When we asked was she walking with you, our daughter said no, she was flying. When we asked what she looked like, our daughter said, she looked just like me mommy. I knew then that it must have been her older sister watching over her and leading her back to my brother's house, the baby that I lost years earlier. I still praise Jesus to date for saving my baby from grave danger, even death and I thank my baby in heaven for taking care of her sister. She knows I long for the opportunity to meet her in heaven!"

We can see by this testimonial that our little babies are in heaven, watching down upon us and praying for us because they are saints in heaven once they have been Baptized. Remember, no one can get into heaven to be with and live with Jesus unless they are Baptized.
